

PRACTITIONER BIOGRAPHY

Dr. Yves Camus (GDC No. 64398)

I qualified from Manchester University in 1989 and have been at St. George's Dental Practice since 1990, becoming a partner in 1994.

I gained a post graduate diploma in conscious sedation in 2004 and achieved national recognition for the practice with the Investors in People accreditation.

I offer NHS and Private dental care and am keen to provide the latest treatments at a competitive price.

My interests include the training of newly qualified dentists and I have had a supervisory role over their vocational training since 2000 as part of the Manchester University vocational training course.

I have an active hands on role in the management of the practice and am constantly seeking to meet and exceed the expectations of the staff and patients alike. I aim to stay abreast of all developments within dentistry both clinically and legislatively and have sought to continually develop within my profession.
